

Refectocil Brow[n]s

1. Clean the eyebrows using the RefectoCil Micellar Eye Make-up Remover.
2. Measure the perfect brow shape with the RefectoCil Brow Mapper. Draw a frame in the desired brow shape.
3. **For brows only!** Optional step for more intense results: The Intensifying Primer prepares the skin for even tinting. Choose the primer according to skin type: "Medium" for a softer effect or "Strong" for an intense result. Open Intensifying Primer, put a pea-sized amount into a cosmetic dish. Apply to brows and skin with the RefectoCil cosmetic brush. Application time: 4 minutes.
4. Remove the Intensifying Primer using a dry cotton swab.
5. Important: Let the brows dry for 4 minutes before the next step!
6. Select the desired colour. Open the Base Gel (Step 1) and squeeze a pea-sized amount into a clean cosmetic dish. Use a clean brush to apply the Base Gel to brows & skin evenly in the direction of hair growth. Application time: 2 minutes!
7. Remove Base Gel using a dry cotton swab.
8. Important: Let the brows dry for 4 minutes before the next step.
9. Open the Activator Gel (Step 2). Squeeze a pea-sized amount into a clean cosmetic dish and apply the Activator Gel to brows & skin using a clean brush. Start brushing at the end of the brow and continue to the middle and front part. Work very precisely. Application time: 1 minute
10. Remove Activator Gel with a wet cotton pad. Remove unwanted stains or correct brow shape if needed with Intense Brow[n]s Tint Remover using a dry cotton swab.
